October 2010

# OPEV *At the AEC*

*From experience to knowledge  
From knowledge to action*

**What: Panel discussion on evaluation**  
**When: October 29, 2010**  
**Time: 10:45 am– 12:45 pm**  
**Place: Ramada Hotel, Gammarth**

## **Panel Discussion on Evaluation as a Driver of Economic Recovery and Long-Term Growth: Patterns and Directions in Africa**

**Can evaluation help to drive economic recovery and growth?**

**What do evaluators have to say about the recent financial crisis and prospects for economic recovery? Can policy makers draw on relevant evaluation evidence in planning for recovery and growth?**

**Does evaluation theory and practice need to change to address these questions effectively?**

**Is there sufficient evaluation capacity in the region to make evaluation matter for Africa's development?**

These and other questions will be addressed by a panel of evaluation specialists: Benoit Chervelier, Guy Blaise Nkamleu, Eneas Gakusi, and Colin Kirk. Panel presentations will be followed by an open discussion. The session will be chaired by Aloysius Ordu, VP, Country and Regional Programs and Policy.

**Don't miss this opportunity to share your perspective on whether evaluation can help to drive economic recovery and long term growth in Africa!**

## Evaluation Panel at the African Economic Conference 2010:

### Evaluation as a Driver of Economic Recovery and Long-Term Growth: Patterns and Directions in Africa

The fifth edition of the **African Economic Conference** will be held in Tunis from October 27 to 29, 2010, on the theme: “**Setting the Agenda for Africa’s Economic Recovery and Long-term Growth**”.

During the conference, the **Operations Evaluation Department** (OPEV) of the African Development Bank will host a panel session on “Evaluation as a Driver of Economic Recovery and Long-Term Growth: Patterns and Directions in Africa”.

OPEV’s objective is to provide a forum to discuss the evaluation-economic development nexus. Chaired by the Bank’s Vice-President for Country and Regional Programs and Policy, the two-hour session will feature presentations by four panelists, who will speak on the current context, theoretical and empirical evaluation results, and guidelines for strengthening the evaluation-economic development nexus in Africa. The presentations and discussions with participants are expected to develop a shared understanding of the scope and relevance of development evaluation and why it matters for economic recovery in Africa.

This should be a great networking event for those interested in evaluation and a lively forum for cross-disciplinary dialogue between evaluation practitioners and users.

Don’t miss this opportunity to share your perspective on the contribution evaluation makes to long-term growth in Africa.
