MULTI-DONOR GOVERNANCE TRUST FUND

I. Introduction

1.1 Governance is becoming a more prominent area of focus for many African countries and development partners. Good governance and anti-corruption have been clearly highlighted in the Paris Declaration on Aid Effectiveness\(^1\) as areas where more support to country efforts and coordination is needed, in order to improve development performance. For the Bank, these development challenges are articulated in the 2008-2012 Governance Strategic Directions and Action Plan (GAP)\(^2\).

1.2 In order to meet the complex governance needs of the continent, the Bank has provided a variety of tools, including policy based lending, institutional support, policy dialogue and economic and sector work. In so doing, the Bank has greatly benefited from the use of the Nordic Trust Fund for Governance (NTFG) in 2002-2008 supported by Denmark, Finland, Norway and Sweden, which promoted governance activities and contributed towards the establishment of the Governance, Economic and Financial Reforms Department (OSGE) in 2006.

1.3 Building on the positive outcomes of NTFG, the Bank has developed a new proposal for a multi-donor Governance Trust Fund (GTF). The new Fund was designed based on the recommendations of an evaluation of the NTFG conducted in 2008\(^3\). The Governments of Norway and Switzerland have confirmed their intention to contribute to the Fund to be administered by ORRU in line with the Technical Cooperation Fund Reform Program approved by the Board of Directors in September 2006. Norway has pledged 6.4 million NOK (approx USD 1.113 million) and Switzerland has pledged CHF 3 million (approx. USD 2.99 million). The Fund resources will be untied.

II. Objectives

2.1 The GTF’s objective is to assist the Bank’s Regional Member Countries (RMCs) to build capable and responsive States by strengthening transparency and accountability in the management of public resources. Specifically, the GTF will support innovative ideas in the field of economic and financial governance that demonstrate potential to promote change and achieve results within the context of the GAP.

2.2 Activities financed under this Multi-Donor Trust Fund will (i) directly assist RMCs to improve transparency and accountability in the use of public resources (Recipient-executed) or (ii) improve the Bank’s own internal capacity to deliver the GAP (Bank-executed).

2.3 Funded activities shall focus on one or more of the following areas:

- Measures to analyze and improve governance and reduce corruption, including the promotion of credible audit, accountability mechanisms and oversight institutions;
- Good financial management, including public procurement, tax and non-tax revenues administration and debt management;
- Support to investment climate and business environment; and

- Sector governance, particularly in high risk areas, e.g. Extractive Industries Transparency Initiative (EITI and EITI++) and participatory development;

Within the priority areas outlined above, GTF financed activities will fall under one or more of the following levels of interventions of the Bank’s GAP:

- **At the Country level**, the GTF will focus on helping RMC strengthen country systems for managing public resources, with an emphasis on oversight institutions and accountability systems. At this level, activities may include: country governance diagnostics, support to legislative process on access to information and whistle blower law, capacity building and information and civil education programs, participatory budgeting and community score cards;

- **At the Sector level**, the GTF will concentrate on improving governance and promoting integrity, particularly in high-risk sectors such as infrastructure. Activities in this area may include: sector governance reviews such as risk mapping, cost benchmarking, sector governance guidelines, stakeholder consultations, sector public expenditure tracking surveys and technical assistance to sector ministries; and

- **At the Regional level**, the GTF will support regional and sub-regional initiatives that promote standards and codes of good economic and financial governance. This includes: cross-country governance diagnostics and benchmarking, best practice and legislative compendia, support to regional networks of senior budget officers, accountant-generals and auditor-generals, regional training and lesson sharing events.

Through the calls for proposals and the specific operational guidelines, a more detailed set of activities will be defined, including the possibility to focus on certain themes of interest for each call for proposals. The proposed interventions will have to demonstrate the potential to achieve concrete results, by specifying the desired level of change given the context of intervention, as described below:

- **Phase I: Opening Spaces.** The GTF’s basic strategy is to open space for alternative voices and views or specific topics to have a more prominent role in the development agenda;

- **Phase II: Incubating Innovation.** The GTF will aim to activate or support the initial stages of genuinely transformative approaches that challenge the boundaries of conventional development practice, to promote experiments and to allow them to grow and demonstrate their full potential to make an impact on governance;

- **Phase III: Embedding Change.** The GTF will seek to enable people and institutions to recognize, re-define, and use existing and emerging spaces, as well as instruments to demand and deliver concrete/realistic governance reforms; and

- **Phase IV: Transforming Institutions.** The GTF aims to pave the way for productive collaboration between citizens and government agencies, leading to organic improvements in service delivery.

### III. Target Beneficiaries:

The following will benefit from the grants under the GTF:

- **Bank’s Organizational Units (Bank - executed)**, including sector departments, regional departments and field offices;

- **Public Institutions and their Collective Representations (Recipient - executed)**, including: local, provincial, and central government institutions; parliaments; institutions created due to regional
integration agreements; networks of government officials; African chapters of international networks of government officials and regional organizations; and

- **Civil Society Organizations (Recipient - executed)**, including: consumer associations, peasant associations, neighborhood associations, parent associations, student unions, labor unions, ethnic communities, interest groups, non-governmental organizations and media.

### IV. Fund Administration and Management:

4.1 The Fund resources will be administered in accordance with Bank procedures, rules and policy guidelines. The Partnerships and Cooperation Unit (ORRU) will be responsible for managing the Fund, carry out all communications and reporting to donors, and provide fiduciary oversight. OSGE will be responsible for the technical aspects of the Fund, including those related to the implementation of operational activities. Under the Arrangement, the Bank Technical Committee (TC) will examine and approve all projects for amounts equivalent to or below USD 500,000. Operations involving between USD 500,000 and USD 1 million will be approved by the Oversight Committee (OC), while those exceeding USD 1 million will be submitted for the approval of the Bank’s Board of Directors. The Bank will designate from amongst its staff a Coordinator who will process the financing requests and oversee the execution process. This Coordinator, who will report to the Head of ORRU, will organize the TC meetings and run the OC secretariat.

4.2 The OC will be composed of representatives of contributors to the Fund and representatives of the Bank Management. The Committee will be responsible for overall governance of the Fund. The OC will meet at least once a year to: (i) set policy, (ii) undertake annual reviews and (iii) approve proposals above US$500,000.

4.3 The TC to be chaired by OSGE will be composed of representatives from Bank departments, including, but not limited to, Governance, Economic & Financial Reforms (OSGE), ORRU (Partnerships and Cooperation Unit), General Counsel & Legal Services (GECL) and Financial Control (FFCO). After every call for proposals, the TC will meet to carry out a technical review. The Committee will also ensure that financed projects are geographically distributed and fully aligned with the Bank’s governance strategy and GTF priorities. OSGE will provide advice on the technical feasibility of each proposal at the TC.

4.4 The Bank’s field offices in RMCs will progressively play an important role in the implementation of the GTF. They will raise awareness about the Fund, provide basic technical assistance to beneficiaries and assist in monitoring and supervision.

4.5 The Bank will charge a five per cent (5%) minimum management and administration fee.

### V. Conclusion

5.1 The Multi-donor Arrangement for the Governance Trust Fund translates the partners’ recognition of the key role played by the Bank in supporting good governance in RMCs. Notably in the face of the current financial crisis, this Trust Fund recognizes the importance of promoting a more transparent and accountable use of public resources.

ii) Authorize the President to sign the proposed Arrangement establishing a Governance Trust Fund with Norway and Switzerland, as well as any other governments or entities wishing to contribute to the Governance Trust Fund in the future.

3. A Donor may decide not to continue its participation in the GTF by giving written notice of not less than six (6) months to the Bank and, upon the expiration of the notice period, ceasing to make future grants to the Bank for purposes of the GTF. The decision not to make future Contributions will, however, not release such Donor from full payment to the Bank of any Contributions previously committed to the Bank.

This Arrangement will become effective, and operational upon its signature by the Bank and any two (2) Donors.

ARTICLE IX

AMENDMENT

This Arrangement may be modified by the written consent of the Bank and a simple majority of the Donors, each of which will give full consideration to any proposal to amend the Arrangement.
