1. The Government of the Arab Republic of Egypt has received a grant from the African Development Bank (AfDB) to undertake a study on improving the operational efficiency of existing thermal power plants in Egypt.

2. The principal objective of the Study is to identify opportunities for the Egyptian Electricity Holding Company (EEHC) to improve the efficiency, reliability, availability, output and operating life of one or two of its existing steam-cycle thermal power plants. The findings of the Study should then be applicable to other thermal power plants in the country.

3. The project includes one main component comprising:
   a. Consultancy services to undertake the fore-mentioned Study on power plant efficiency in Egypt.
   b. Audit

5. Interested bidders may obtain further information, and should confirm their interest, by contacting:

   Eng. (Ms.) Zeinab Mukheimar
   Managing Director, Steam Power Plant Projects
