GENERAL PROCUREMENT NOTICE

REPUBLIC OF KENYA
GEOTHERMAL DEVELOPMENT COMPANY

MENENGAI GEOTHERMAL DEVELOPMENT PROJECT

The Government of Kenya has received a loan from the African Development Fund (African Development Bank Group) to finance the Menengai Geothermal Development.

The objective of the Project is to meet Kenya’s rapidly increasing demand for power while diversifying sources of power supply by developing the country’s geothermal potential. More specifically, the Project aims to develop the Menengai geothermal steam field to produce enough steam for 400 MW power generation.

The project includes the following components:

1. Supply and delivery of drilling materials:

2. Consulting Services for:
   - Project Management and Supervision
   - Transaction Advisory Services
   - Training & Capacity Building

Bidding documents for procurement of drilling materials and Request for Proposals for consultancy services are expected to be available in February 2012.

Interested bidders may obtain further information, and should confirm their interest, by contacting:
