GENERAL PROCUREMENT NOTICE

Republic of Angola

Institutional Capacity Building for Private Sector Development Project

Loan N° 20000130012581
1. The Government of Republic of Angola has received a loan from the African Development Bank to finance the costs of the: Institutional Capacity Building for Private Sector Development Project (ICBPSD).

2. The principal objectives of this project are to:

The project goal is to contribute to private sector development and diversification of the economy. The project aims to build the capacity of the various public services which support private sector development. The project’s specific objectives are to: i) support enterprise competitiveness and entrepreneurship and ii) support the development of the cooperative movement.

3. The project includes the following components:

3.1. Support to business competitiveness and entrepreneurship

This component aims to build the capacity of the Entrepreneurship Promotion Institute (IFE) by training its staff, building its capacity to support businesses in preparing their projects, developing and disseminating information on businesses, conducting 6 studies on potential for exports and internationalization. It also aims to support the strengthening of the training mechanisms of the National Institute for Support to Micro, Small and Medium-Sized Enterprises (INAPEM).

3.2. Support to the development of the cooperative movement;

This component aims to contribute to (i) the preparation of regulations on cooperatives, (ii) the conduct of studies and dissemination of information on cooperatives, and (iii) exchanges of experiences concerning cooperatives.

3.3. Management, Monitoring and Evaluation

This component provides for the establishment of a monitoring and evaluation system for private sector development support programmes, mainstreaming gender issues. It also provides for the establishment of an adequate mechanism for the general coordination and monitoring of the project’s implementation.

In order to implement these three components, the main procurement methods for goods (computer equipment and software, office furniture, and vehicles) to be used are NCB and Shopping, and for consultancy services (specific studies, training, project audit, mid-term, and final reviews) are QCBS, LCS, and IC.
