

GENERAL PROCUREMENT NOTICE

Federal Republic of Nigeria

Institutional Support for Economic Management and Delivery Project (ISEMDP): Project ID No. P-NG-KA0-005, Loan No. 2100150040544

1. The Government of the Federal Republic of Nigeria has received a Loan from the African Development Fund to finance the Institutional Support for Economic Management and Delivery Project (ISEMDP). The Ministry of Budget and National Planning, the International Economic Relations Department of the Federal Ministry of Finance, and the Bureau of Public Procurement, each being responsible for their respective component under the Project, in line with their statutory mandates shall be the Implementing Agencies for the Project.

2. The principal objective of this Project is to strengthen economic and financial governance for achieving a stable macroeconomic environment, inclusive and sustained growth, and effective implementation and delivery of the national development plan. The specific objective of the Project is to develop institutional capacity in macroeconomic management, revenue mobilization, procurement, monitoring and evaluation, and performance and portfolio management and delivery.

3. The Project has four mutually reinforcing components: (a) enhancing economic management, (b) enhancing performance management and delivery, (c) strengthening domestic revenue mobilization and effectiveness in public procurement, and (d) project management support. The main descriptions of the activities financed under each components is summarized as follows:

- Component 1: Enhancing economic management: Under this component the project will provide technical assistance for Strengthening Macroeconomic Planning, Policy Analysis and Management including the development of a macroeconomic forecasting and analysis model and updating Nigeria's Social Accounting Matrix (SAM); establishing a modeling lab; economic surveillance and preparation of annual economic performance report; a study on economic informality/informal economy and growth; and development of a national medium term development plan, as well as sectoral and states strategic plans aligned to the national plan.
- Component 2: Enhancing performance management and delivery: The Project will provide technical assistance and capacity building to institutionalize M&E system and functions across priorities sectors by (a) reviewing and developing M&E operational manual, toolkits and templates; (b) developing monitoring and evaluation training curriculum; (c) review the existing gender policy of 2006 and develop a new gender policy; and (d) creating a Knowledge Management Hub (Evaluation Resource Center). The project will also provide support to (i) Enhance Performance Management and Delivery through facilitating KPIs target-setting for the

national priorities to cascade down from Ministers to staff; and establishing a delivery dashboard for KPI tracking; and (ii) Portfolio Management and Oversight by establishing automated portfolio performance dashboard for effective portfolio management of international financial institutions focusing on timely delivery, disbursement and results; and training in project cycle management, monitoring and evaluation, performance tracking, and portfolio management.

- Component 3: Strengthening domestic revenue mobilization and effectiveness in public procurement: Under this component, The Project will provide technical assistance to strengthen revenue mobilization from Government Owned Enterprises by developing revenue performance management framework; revenue forecasting tools and templates; development of revenue performance reconciliation, monitoring and reporting systems; and updating the enabling act, policy and legal frameworks for independent revenue generating agencies to improve revenue collection efficiency, increase remittance to treasury and improve accountability. The project will also support efforts to strengthen effectiveness in Public Procurement through technical assistance in the following four areas: (a) review the Scheme of Service and competency framework for procurement cadre, including the Federal Government Circular on procurement cadre; (b) review the existing training curriculum and service providers, and develop training curriculum in accordance with the competency requirement for procurement professionals at different levels of grade; (c) development of public procurement reform strategy and implementation roadmap; and (d) establishment of a National Procurement Academy or Center of Excellence and institutional strengthening for Public Procurement Research Centers
- Component 4: Project Management Support will include Coordination, Monitoring and Evaluation; Procurement management; Financial management; Audit

4. Procurement of goods (including non-consultancy services) and the acquisition of consulting services will be carried out in accordance with the “Procurement Policy and Methodology for Bank Group Funded Operations”, dated October 2015 and following the provisions stated in the Financing Agreement. Bidding Documents are expected to be available in April 2019.

5. Interested consultants and suppliers may obtain further information, and should confirm their interest, by contacting
