1. The Government of the Republic of Zambia has received a grant from the Middle Income Countries Trust Fund (MIC-TF) of the African Development Bank to finance Feasibility and Design Studies for the Luswishi Farm Block Development Project on the Copperbelt Province of Zambia.

2. The objective of the project is to contribute to poverty reduction, improved household incomes through provision of back-bone infrastructure that enhances commercialisation of agricultural lands. The principle objective of the study is therefore carry out a detailed feasibility and environmental study, with detailed technical and institutional designs, bill of quantities and tender documents that will facilitate the preparation of the proposed Luswishi Farm Block Development Project.

3. The main procurement under the Facility shall be consultancy services for the conduct of a feasibility and detailed design study.

4. Acquisition of Consultant Services will follow the Bank's Procurement Policy and Methodology for Bank funded Operations of October 2015, which is available on the Bank's website at http://www.afdb.org. Solicitation Documents are expected to be available in January 2017.

5. Interested Consultants may obtain further information, and should confirm their interest by contacting the undersigned:
