1. The Arab Republic of Egypt has received a grant from the African Development Bank to finance the Actuarial Modelling Study for Implementation of the National Social Health Insurance System.

2. The principal objectives of this study is to update the health insurance actuarial model to provide the Recipient, through the Ministry of Finance, with the necessary information on the financial and fiscal options for the implementation and roll out of the National Social Health Insurance system, within the Health Sector Reform Initiative.

3. The study includes the following components:
   Component 1: An update of the 2008/10 actuarial modelling and fiscal space study for the implementation of the Social Health Insurance Law. This update will integrate a new set of updated data related to government budget and commitments, demographic updates, national health account updates, labor and socio-economic updates, and assumptions.
   Component 2: Hands-on coaching and training on actuarial modelling to at least 5 staff members from the Ministry of Finance and Ministry of Health working on the Health Reform Program.

4. Procurement of goods and/or works will be in accordance with the Bank’s Procurement Policy for Bank Group Funded Operations, October 2015 Edition. Bidding documents are expected to be available in August 2016.

5. Interested bidders may obtain further information, and should confirm their interest, by contacting:

   Egyptian Ministry of Finance
   Contact name: Dr. Mohamed Maait – Vice Minister of Finance
