GENERAL PROCUREMENT NOTICE

Government of the Republic of Rwanda

Technical Assistance to Skills Development in the Energy Sector Project
(FAPA Technical Assistance)

Project No. : P-RW-IA0-003

1. The Government of the Republic of Rwanda has received a FAPA grant of Eight Hundred Thousand United States Dollars ($ 800,000) from the African Development Bank to finance the Skills Development in the Energy Sector Project.

2. The principal objectives of this project are:

   (i) Support part of the costs of curricula development and delivery for post technical and vocational education and training for students and employees in hydro-power and geothermal energy sources.

   (ii) To provide, through the curricula, the design of skills development required, matching employers' needs in order to reduce the mismatch between the supply by skills providers and demand from the Rwandan labor market in the energy sector.

3. The project includes the following components:

   (i) Curricula Development:

   (ii) Project management and coordination.

4. Procurement of goods and services will be in accordance with the Bank's Rules of Procedure for the Procurement of Goods and Works. Acquisition of the services of Consultants will follow the Bank's Rules of Procedure for the Use of Consultants. Bidding documents and/or Requests for Proposals are expected to be available by 30th March 2014.

5. Interested bidders may obtain further information, and should indicate their interest, by contacting:
