FOREST INVESTMENT PROGRAM (FIP)
AfDB-FIP Portfolio

BURKINA FASO
GRAYED FORESTS PARTICIPATORY MANAGEMENT
FIP $11.5 M
Purpose: To reduce deforestation and degradation of gazetted forests while increasing the sustainable income of local communities
Key results:
- Over 550 households benefiting from clean biomass energy and another 4,282 from clean cookstoves
- Plantation of 3,037 ha of gazetted forests
- A total of $41.97 M from improved forest-based livelihoods

CÔTE D’IVOIRE
FOREST COVER RECOVERY AND RESILIENCE IMPROVEMENT PROJECT IN THE CENTER
FIP $9 M, AfDB $7 M
Purpose: To improve the population’s resilience and increase carbon sequestration capacity in the country by focusing on the restoration of agricultural value chains
Key results:
- 7 million tons of CO2 equivalent avoided over 25 years, increase of 25% of rural revenue, increase of 10% of vegetation cover

DEMOCRATIC REPUBLIC OF CONGO
INTEGRATED REDD+ IN THE MBUJI-MAYI/KANANGA AND KISANGANI BASINS
FIP $21.5 M
Purpose: To reduce forest GHG emissions and poverty in a degraded savanna area and a closed forest area by addressing land tenure security, agriculture, forestry, and energy
Key results:
- 11,405 people benefiting from improved livelihoods
- 11,406 ha of forests sustainably managed
- More than 3,000 People trained on climate-responsible issues

CONGO
COMMUNITY AGROFORESTRY AND WOOD ENERGY PROJECT
FIP $6 M, AfDB $8.34 M
Purpose: To promote sustainable agricultural development in Congo through the practice of agroforestry by reducing the pressure on forests linked to agricultural activities and wood energy
Key results:
- Competitiveness of agricultural products improved; processing and marketing operations optimized; improve soil fertility; a micromodule created through tree shading; 250 household supported for land security of 2 hectares each

GHANA
ENGAGING LOCAL COMMUNITIES IN REDD+ ENHANCING CARBON STOCKS
FIP $9.75 M, AfDB $5.33 M
Purpose: To increase carbon stocks and poverty reduction in the off-reserve areas of the High Forest Zones by engaging communities in land management approaches that generate direct financial and environmental benefits
Key results:
- 3,027 ha of forest plantations sustainably managed
- At least 13,216 members of local communities and governments gain from capacity building activities
- 1,750 green jobs created

GHANA
RESTORATION OF DEGRADED FOREST RESERVES THROUGH CERTIFIED PLANTATION
FIP $10 M, AfDB $14 M
Purpose: To catalyze private sector involvement in the establishment and maintenance of sustainable commercial forestry plantations on degraded forest reserves in Ghana
Key results:
- Over 4,056 ha of degraded forest land restored and transformed into commercial forestry plantations since 2017
- Successful business-sharing agreement put into place between private sector, local communities surrounding forest reserves, and Government of Ghana

BURKINA FASO
CLIMATE CHANGE MITIGATION AND POVERTY REDUCTION THROUGH THE DEVELOPMENT OF THE CASHWanut SECTOR
FIP $4 M, AfDB $1.39 M
Purpose: To increase carbon sequestration capacity and reduce poverty in rural areas through promotion of cashew sector production, value chain, and sustainability
Key results:
- 85,146 people satisfied with climate-responsive issues
- 23,503 ha covered through improved land management

GHANA
PROJECT PREPARATION GRANTS:

- Burkina Faso: Gazetted Forests Participatory Management Project for REDD+ ($200,000) Completed AfDB Approval: June 2012
- DR Congo: Addressing Deforestation and Degradation in the Mbuji-Mayi, Kananga and Kisangani Supply Area ($850,000) Completed AfDB Approval: June 2012
- Ghana: Form Ghana ($100,000) Completed AfDB Approval: March 2015
- Ghana: Engaging Local Communities in REDD+ (Enhancing Carbon Stocks) ($250,000) Completed AfDB Approval: December 2012

FIP RESULTS

- Achieved Target
  - 152,921 ha 410,692 ha
    - from 7 projects
- 176,145 people 821,316
  - people benefiting from improved livelihoods (from 5 projects)

FIP PILOT COUNTRIES

- Burkina Faso
- Côte d’Ivoire
- Cameroon
- Rep. of Congo
- DR Congo
- Zambia
- Mozambique
- Tunsia
- Uganda
- Rwanda
- Angola
- Tanzania
