A4.2.1 The Vendor shall execute the basic and detailed design and the implementation activities necessary for successful installation of the System in compliance with the provisions of the Contract. The Vendor shall be responsible for any discrepancies, errors or omissions in the specifications, drawings, and other technical documents that it has prepared, whether such specifications, drawings, and other documents have been approved by the Project Manager or not, provided that such discrepancies, errors, or omissions are not caused by inaccurate information furnished in writing to the Vendor by or on behalf of the Bank.

A4.2.2 The Vendor shall be entitled to disclaim responsibility for any design, data, drawing, specification, or other document, or any modification of such design, drawings, specification, or other documents provided or designated by or on behalf of the Bank, by giving a notice of such disclaimer to the Project Manager.

Approval/Review of Technical Documents by Project Manager

A4.2.3 The Vendor shall prepare and furnish to the Project Manager the following documents for which the Vendor must obtain the Project Manager’s approval before proceeding with work on the System or any Subsystem covered by the documents:

(a) detailed site surveys; and
(b) list of documents to be submitted by the Vendor

A4.2.4 The Project Manager’s approval, with or without modification of the documents furnished by the Vendor, shall not relieve the Vendor of any responsibility or liability imposed upon it by any provisions of the Contract except to the extent that any subsequent failure results from
modifications required by the Project Manager or inaccurate information furnished in writing to the Vendor by or on behalf of the Bank.

A4.3 Procurement, Delivery and Transport

A4.3.1 Unless otherwise specified in the Contract, the Vendor shall notify the Bank with the full details of the shipment for Goods supplied from outside the Bank’s host country. The Vendor shall, within twenty-four (24) hours after shipment, of the Goods, transmit a copy of the airway bill or clean on board bill of lading and a copy of the invoice to the Bank.

A4.3.2 The Bank shall bear responsibility for customs clearance of Goods into the host country in accordance with the Incoterms used for pricing of foreign goods.

A4.4 Product Upgrades

A4.4.1 At any point during performance of the Contract, should technological advances be introduced by the Vendor for Information Technologies originally offered in the Vendor’s Proposal and still to be delivered, the Vendor shall be obligated to offer to the Bank the latest versions of the available Information Technologies having equal or better performance or functionality at the same or lesser unit prices.

A4.4.2 At any point during performance of the Contract, for Information Technologies still to be delivered, the Vendor will also pass on to the Bank any cost reductions and additional and/or improved support and facilities that it offers to other clients of the Vendor in the Bank’s host country.

A4.4.3 During performance of the Contract, the Vendor shall offer to the Bank all new versions, releases, and updates of the Software, as well as related documentation and technical support services, within thirty (30) days of their availability from the Vendor to other clients of the Vendor, and no later than three (3) months after they are released in the country of origin of the Software. In no case will the prices for these Software exceed those quoted by the Vendor.

A4.4.4 During the Warranty Period unless otherwise specified in the Contract, the Vendor shall provide and install at no additional cost (i.e. labor, software and incidental costs) to the Bank all new versions, releases, and updates for all Software that are used in the System, within thirty (30) days of their availability from the Vendor, and no later than three (3) months after they are released in the country of origin of the Software. The Bank shall allow the introduction of all new versions, releases or updates of the Software provided that the new version, release, or update does not adversely affect current System operation or performance or require extensive reworking of the System. In cases where the new version, release, or update adversely affects current System operation or performance, or requires extensive reworking of the System, the Vendor shall continue to support and maintain the version or release previously in operation for as long as necessary to allow introduction of the new version, release, or update.

A4.5 Implementation, Installation and Other Services

A4.5.1 The Vendor shall provide all Services specified in the Contract in accordance with the highest industry standards of reasonable care and skill, professional competence and integrity.
A4.5.2 Prices charged by the Vendor for Services, if not included in the Contract, shall be agreed upon in advance by the Parties (including, but not restricted to, any prices submitted by the Vendor in the Vendor’s Proposal) and shall not exceed the prevailing rates charged by the Vendor to other banks in the Bank’s host country for similar services.

A4.6 Inspections and Tests

A4.6.1 The Bank or an agent duly authorized by the Bank shall have the right to inspect and/or test at its own cost, any components of the System, to confirm their good working order and/or conformity to the Contract at the Vendor’s facilities prior to shipment, at the point of delivery and/or at the Project Site.

A4.7 Installation of the System

A4.7.1 As soon as the System, or any Subsystem, has, in the opinion of the Vendor, been delivered, Pre-commissioned, and made ready for Commissioning and Operational Acceptance Testing in accordance with the technical requirements of the Contract and agreed Project Plan, the Vendor shall so notify the Bank in writing.

A4.7.2 The Project Manager shall, within fourteen (14) days after receipt of the Vendor’s notice under Paragraph A4.7.1, either issue an Installation Certificate or notify the Vendor in writing of any defects and/or deficiencies, including, but not limited to, defects or deficiencies in the interoperability or integration of the various components and/or Subsystems making up the System. The Vendor shall use all reasonable endeavors to promptly remedy any defect and/or deficiencies that the Project Manager has notified the Vendor.

A4.8 Commissioning and Operational Acceptance

Commissioning

A4.8.1 Commissioning of the System (or Subsystem if specified in the Contract) shall be commenced by the Vendor immediately after the Installation Certificate is issued by the Project Manager or as otherwise specified in the technical requirements in the Contract and agreed project plan.

Operational Acceptance Tests

A4.8.2 The Operational Acceptance Tests (and repeats of such tests) shall be the primary responsibility of the Vendor, but shall be conducted with the full cooperation of the Bank during Commissioning of the System (or Subsystem if specified in the Contract), to ascertain whether the System (or major component or Subsystem) conforms to the technical requirement in the Contract and meets the standard of performance quoted in the Vendor’s Proposal, including, but not restricted to, the functional and technical performance requirements. The Operational Acceptance Tests during Commissioning will be conducted as specified in the technical requirements in the Contract and agreed Project Plan.

A4.8.3 At the Bank’s discretion, Operational Acceptance Tests may also be performed on replacement Goods, upgrades and new version releases, and Goods that are added or field-modified after Operational Acceptance of the System.

Operational Acceptance
A4.8.4 Subject to Paragraphs A8.4.11 to A8.4.13 (Partial Acceptance), Operational Acceptance shall occur in respect of the System, when:
(a) the Operational Acceptance Tests, as specified in the technical requirements in the Contract and agreed project plan have been successfully completed; or
(b) the Bank has put the System into production or use for sixty (60) consecutive days. If the System is put into production or use in this manner, the Vendor shall notify the Bank and document such use.

A4.8.5 At any time after any of the events set out in Paragraph A4.8.4 have occurred, the Vendor may give a notice to the Project Manager requesting the issue of an Operational Acceptance Certificate.

A4.8.6 After consultation with the Bank, and within fourteen (14) days after receipt of the Vendor’s notice, the Project Manager shall:
(a) issue an Operational Acceptance Certificate; or
(b) notify the Vendor in writing of any defect or deficiencies or other reason for the failure of the Operational Acceptance Tests; or
(c) issue the Operational Acceptance Certificate, if the situation covered by Subparagraph A4.8.4 (b) arises.

A4.8.7 The Vendor shall use all reasonable endeavors to promptly remedy any defect and/or deficiencies and/or other reasons for the failure of the Operational Acceptance Test that the Project Manager has notified the Vendor. Once such remedies have been made by the Vendor, the Vendor shall notify the Bank, and the Bank, with the full cooperation of the Vendor, shall use all reasonable endeavors to promptly carry out retesting of the System or Subsystem. Upon the successful conclusion of the Operational Acceptance Tests, the Vendor shall notify the Bank of its request for Operational Acceptance Certification, in accordance with Paragraph A4.8.6. The Bank shall then issue to the Vendor the Operational Acceptance Certificate, in accordance with Subparagraph A4.8.6 (a) or notify the Vendor of further defects, deficiencies, or other reasons for the failure of the Operational Acceptance Test. The procedure set out in this Paragraph A4.8.7 shall be repeated, as necessary, until an Operational Acceptance Certificate is issued.

A4.8.8 If the System or Subsystem fails to pass the Operational Acceptance Test(s) in accordance with Section A4.8, the Bank may consider terminating the Contract, pursuant to Article H of the General Conditions of Contract.

A4.8.9 If within fourteen (14) days after receipt of the Vendor’s notice the Project Manager fails to issue the Operational Acceptance Certificate or fails to inform the Vendor in writing of the justifiable reasons why the Project Manager has not issued the Operational Acceptance Certificate, the System or Subsystem shall be deemed to have been accepted as of the date of the Vendor’s said notice.

Partial Acceptance

A4.8.10 If specified in the Contract, Installation and Commissioning shall be carried out individually for each identified major component or Subsystem(s) of the System. In this event, the provisions in the Contract relating to Installation and Commissioning, including the Operational Acceptance Test, shall apply to each such major component or Subsystem individually, and Operational
Acceptance Certificate(s) shall be issued accordingly for each such major component or Subsystem of the System, subject to the limitations contained in Paragraph A4.8.12 below.

A4.8.12 The issuance of Operational Acceptance Certificates for individual major components or Subsystems pursuant to Paragraph A4.8.11 above shall not relieve the Vendor of its obligation to obtain an Operational Acceptance Certificate for the System as a whole (if specified in the Contract) once all major components and Subsystems have been supplied, installed, tested, and commissioned.

A8.4.13 In the case of minor components for the System that by their nature do not require Commissioning or an Operational Acceptance Test (e.g., minor fittings, furnishings or site works, etc.), the Project Manager shall issue an Operational Acceptance Certificate within fourteen (14) days after the fittings and/or furnishings have been delivered and/or installed or the site works have been completed. The Vendor shall, however, use all reasonable endeavors to promptly remedy any defects or deficiencies in such minor components detected by the Bank or Vendor.

A5 Liquidated Damages

A5.1 If the Vendor fails to supply, install, commission, and achieve Operational Acceptance of the System (or Subsystems if specified in the Contract) within the time for achieving Operational Acceptance specified in the technical requirements in the Contract and agreed Project Plan, or any extension of the time for achieving Operational Acceptance previously granted, the Vendor shall pay to the Bank liquidated damages of 0.10% of the Contract Price per week.

A5.2 The maximum liquidated damage is 5% of the Contract Price, or relevant part of the Contract Price if the liquidated damages apply to a Subsystem.

A5.3 Liquidated damages payable under Section shall apply only to the failure to achieve Operational Acceptance of the System (and Subsystems) as specified in the technical requirements in the Contract and agreed Project Plan. This Subsection A5.3 shall not limit, however, any other rights or remedies the Bank may have under the Contract for other delays.

A6 Warranties

A6.1 In addition, the Vendor warrants that: (i) all Goods components to be incorporated into the System form part of the Vendor’s and/or Subcontractor’s current product lines, (ii) they have been previously released to the market, and (iii) those specific items identified in the Contract (if any) have been in the market for at least the minimum periods specified in the Contract.

A7 Maintenance Services

A7.1 The Warranty Period shall commence from the date of Operational Acceptance of the System (or of any major component or Subsystem for which separate Operational Acceptance is provided for in the Contract) and shall extend for [specify the length of time].

A7.2 The Post Warranty Period shall commence automatically on the day the Warranty Period expires and shall extend for [specify the length of time]. The start of the Post Warranty period coincides with the entry in force of the Maintenance Contract, which shall extend for the length of time specified in the Contract. The Service Level Agreement shall apply during the Warranty and Post-Warranty Periods.
A7.3 If during the Warranty Period any defect should be found in the design, engineering, Materials, and workmanship of the Information Technologies and other Goods supplied or of the Services provided by the Vendor, the Vendor shall promptly, in consultation and agreement with the Bank regarding appropriate remedying of the defective parts, hardware and software, at its own cost repair, replace, or otherwise make good such defect as well as any damage to the System caused by such defect. The Vendor shall also replace, as part of its maintenance duty under this warranty, parts which have become non-performing as a result of normal wear and tear.

A7.4 The Bank shall give the Vendor a notice promptly following the discovery of such defect, stating the nature of any such defect together with all available evidence.

A7.5 The Vendor may, with the consent of the Bank, remove at its cost any Information Technologies and other Goods that are defective, if the nature of the defect, and/or any damage to the System caused by the defect, is such that repairs cannot be expeditiously carried out at the site.

A7.6 The Vendor commits to provide the following Services during the Post Warranty Period:

(a) Hardware Maintenance: the Vendor shall provide both preventive and corrective maintenance services as per the terms of the Maintenance Contract and Service Level Agreement. Manufacturer’s hardware warranty normally covers repair and spare parts replacement and shall be provided at no additional cost (i.e. labor, spare parts and incidental expenses) to the Bank except for any cost directly linked to special requirements of the Maintenance Contract and the Service Level Agreement not covered by manufacturer’s warranty.

(b) Software Maintenance: the Vendor shall provide preventative and corrective maintenance services; correct errors and defects in the System; and supply new versions, releases and updates for the system as per the terms of the Maintenance Contract and Service Level Agreement.

(c) Technical Support: the Vendor shall provide all support related services stipulated in the Maintenance Contract and Service Level Agreement and elsewhere in this Contract.

(c) Third-Party Liability Insurance

The Vendor shall obtain Third-Party Liability Insurance in the amount of USD1,000,000 without any deductible for loss of or damage to property (such as the Bank’s property including the Information System and any Subsystem that have been accepted by the Bank, the building housing the Bank’s site and all equipment and appurtenances thereto, occurring in connection with the supply and of the System), and unlimited for bodily injury or death suffered by third parties (including the Bank’s personnel) and loss of or damage to property. The insured Parties shall only be the Vendor, the Bank and the Subcontractors. The insurance shall cover the period from beginning from the Commencement Date for the duration of the Contract.

A8.2 The Bank shall be named as loss-payee under all insurance policies taken out by the Vendor pursuant to Subsection A8.1, except for the third-party liability, and the Subcontractors shall be named as co-insured under all insurance policies taken out by the Vendor pursuant to Subsection A8.1 except for cargo insurance during transport of goods to be supplied under the Contract. All insurers’ rights of subrogation against such loss-payee and co-insured for losses or claims arising out of the performance of the Contract shall be waived under such policies.

A8.3 The Vendor shall deliver to the Bank certificates of insurance (or copies of the insurance policies) as evidence that the required policies are in full force and effect during the performance of this Contract.
