The main objective of the Bank’s Mozambique Country Strategy Paper (CSP) 2018-2022 is to accelerate structural transformation by creating the jobs required to reduce poverty and inequality. It is anchored on two pillars:

1. "Development of infrastructure to enable inclusive growth and job creation"
2. "Support to agricultural transformation and value chain development"

The CSP aligns with the 2020-24 Five-Year Government Plan (PGP).

The Bank actively mobilized additional resources, adding USD 86m in Sovereign Operations (SOs) from the regional envelope, USD 400m in Non-Sovereign Operations (NSOs) and USD 97m in co-financing from the European Union, Germany and Sweden.

**Examples of Results of Bank Group Support**

- The Bank funded more than 1,350 km of power distribution lines, facilitating access for more than 822,000 people. It also provided USD 14 m to support energy utility reform, large-scale project preparation, and a unit to monitor oil and gas concessions. The Bank co-financed the 500 km Temane-Maputo transmission line, the backbone, to create an integrated national grid.

- The main spillway of the Massingir dam in the south increased the irrigated area to 90,000 hectares. Climate Investment Fund resources in Baixo Limpopo increased the incomes of 2,000 farmers by 150% through climate resilient irrigation systems for 3,050 hectares and 45 km of rehabilitated roads. The Bank mobilised USD 50m of emergency funds to the post-cyclone IDAI reconstruction, providing USD 4m for seeds; rebuilding 500 km of tertiary roads, which generated 200 jobs and 80 km of transmission lines from Lamego to Guara-guara.

- The rehabilitation of Litunde-Lichinga road, connecting the fertile Niassa Province with the ocean port of Pemba, reduced travel time in the tract from 8 hours to 2.5 hours.

- The Bank invested around USD 700m in private sector projects in Mozambique over the past five years, such as the USD 400m senior loan to Total’s Area 1 LNG project. The Bank approved additional funding to strengthen SMEs capacity to enter in mega projects value chains, with an emphasis on women and youth entrepreneurs, totaling USD 3.5m.

**High-Level Dialogue Activities**

The three prioritized policy dialogues are:

A. Developing policies for climate resilience
B. Ensuring conflict-sensitive development in northern Mozambique
C. Making Natural gas work for development
